

SA-X4DK Dock for 4 Sonos Amps

The Flexson Dock holds up to four Sonos Amps, keeping your install looking compact and tidy. Once the unit is fitted to a wall or cabinet the four Sonos Amps simply slide in. The Sonos Amps then click into place and are held securely in position via clever retaining clips. These clips will allow the unit to be mounted underneath a cabinet if required. There is also enough space inside the Dock to neatly run cables from all four units.

- Versatile design can be desk or wall mounted. Sonos Amps simply clip securely into place.
- Bespoke design securely holds up to four Sonos Amps
- Can be desk or wall mounted
- Can be bolted to bottom of a cabinet
- Clever cable management to keep things tidy
- Precision engineered. Quick and easy to fit
